

3D Animation/Video

Take a Walk Tutorial (60 min.)

On the PHSPHoto go to Images>AM Tutorials>4. takewalk. Double click on index.html.

Note: During this tutorial the speaker must have moved the microphone some because his voice get really low and difficult to hear. You will need to figure what needs to be done by watching very closely what he does.

Using the Tutorial: This tutorial is similar to the previous ones and if you didn't have any problems with it you should be ok. There aren't any differences between the tutorial and your program that I was able to find. If you find any let me know so I can check it out.

The following are items that you will be expected to turn in for credit for this tutorial. Be sure to rename each screen shot a name that corresponds to the activity that the screen shot is of. Place the screen shots in a folder that is called "YourName.walk" and turn it into the Drop Box.

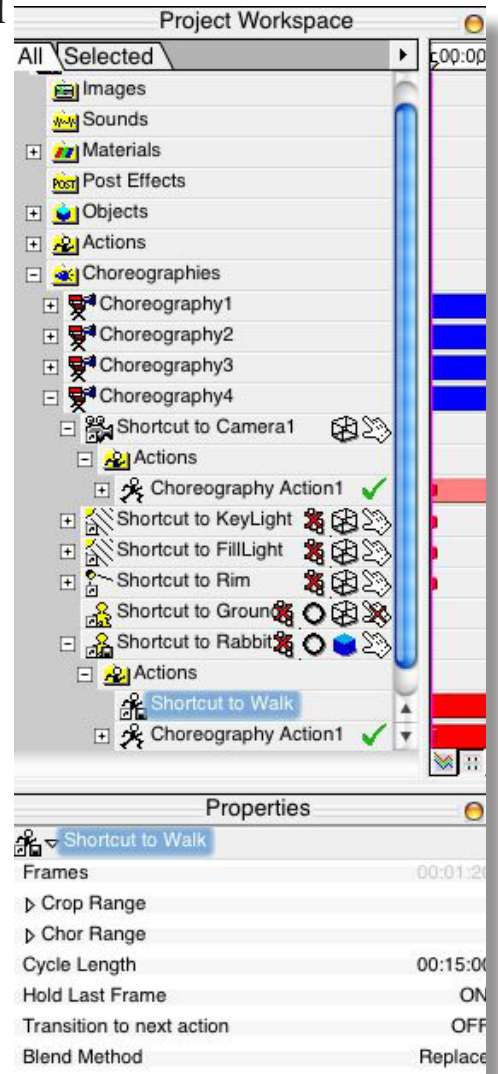

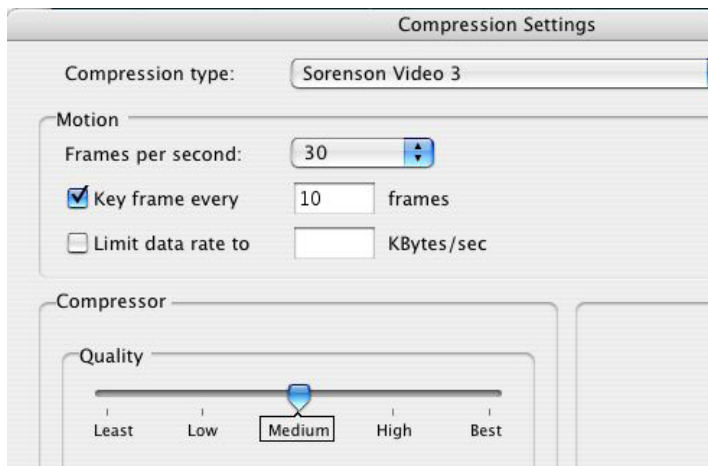

This lesson it will be worth (20) points.

Each of the following are worth 3 pts. except where noted.

1. Screen Shot showing "Category" window with "Action" button highlighted.
2. Screen Shot showing first pose completed.
3. Screen shot of Stride slider being used.
4. Screen shot of top view showing the path made for rabbit to walk.

5. Final Rendered movie. (8 pts.)

Settings for the rendered movie should be as shown below.

Take a Walk Tutorial Evaluation

Name- _____

Rename the screenshots so that I can tell what they represent. Put the screenshots into a folder named "**YourName.Walk**". Drop the folder into the Animation Drop Box on the PHSPhoto Put your name on this evaluation sheet and bind it into your assignment notebook. Put your assignment notebook into the period tray. You will be graded on the following:

3 pts for each except where noted.

| Items in LRF | Yes | No |
|---|-----|----|
| Screen Shot showing "Category" window with "Action" button highlighted. | | |
| Screen Shot showing first pose completed. | | |
| Screen shot of Stride slider being used | | |
| Screen shot of top view showing the path made for rabbit to walk. | | |
| Final Rendered movie. (8 pts.) | | |

Total Pts.(20) _____
