

Competitions

Below are listed some competitions that we have coming up this spring. One of your assignments is to enter a photo/video/animation competition sometime during the semester. Plan ahead and decide what competition that you are going to want to enter.

Photo Focus: Sponsored by BGHS and PHS. Includes both Digital and Film photography. Limited to 3-4 students from each school depending on how many entries from other schools. Competition is on a Saturday in April. Usually the 3rd Saturday in April. It involves shooting on location, and image production (ie...developing film, printing photos, or computer image manipulation). Professional photographers are usually the judges for this competition and you have one on one discussions with the judges about your work. Very fun time and a good experience. Small prizes are awarded to top 3 in both the digital and film categories.

Mt. St. Helens Graphic Competition: Website for the competition is <http://www.greatersthelenscontest.com/>. There are 4 categories for the competition. It is all digital. Great prizes have been awarded for it. It is a turn in competition, meaning you turn work that is judged and don't have to be present for the competition.

Google Website for Photo contests: Here is a website that has a list of photography contests. Look through them and see if there are any that you might be interested in entering. <http://www.google.com/Top/Arts/Photography/Contests/> Proof of entry must be shown to show that you did enter the contest. If there is on line entry you can have a screen shot or print out of the entry.

Other contests: If you find information on any other contests you may use it. Must have proof of entry.

If any other contests come up I'll let you know and post any that I can on the bulletin board between the two red doors for the darkroom.
